

DORSET RECORDS PANEL | Work In Progress - updated 31st July 2022

The records below were submitted to DRP and BBRC for 2021. Those for prior years were previously unsubmitted or are pending awaiting decision.

This is a work in progress report and may contain errors or omissions - please email the county recorder recorder@dorsetbirds.co.uk with any corrections or further details.

Accepted records (A) will be published in the Dorset Bird Report 2021, with national rarities published in the *British Birds* Report on rare birds in Great Britain 2021.

Not proven records (NP) do not imply that the record was not as claimed, just that the details provided did not enable the high level of confidence required for an accept vote.

Decisions for those records still in circulation (IC) or submitted for 2022 will be advised at a later date.

Observer names are not included on previously published, NP or IC records (until accepted).

Committee	Progress	Species	Count	Location	First Date	Last Date	Observer
BBRC	A	Aquatic Warbler	1	Lytchett Bay	17-Aug-21		Shaun Robson et al
BBRC	IC	Barolo/Boyd's/Audubon's Shearwater (group)	1	Hengistbury Head	13-Jun-84
